

# Mockup Review Notes

Christina Lee  
04/19/20

## Project Title: Emma Watson Website

Name of my reviewer: Kristina You  
Relationship: Friend

### Improvements:

1. Try floating navigation bar or condensed navigation system on top for mobile so it doesn't interfere with the body copy
2. good hierarchy of type
3. Maybe try incorporating secondary color? Only black and white can look a little bit too serious.
4. If type treatment is going to be simple, try adding different ways of image treatment for variation! or vice versa
